# MADE FOR iPhone, **MADE FOR YOU**

With the new BEYOND™ hearing aid from Widex, you can enjoy the best that life has to offer. No other made-for-iPhone hearing solution sounds as good. And no other hearing aid offers the same possibilities to connect to the world around you.

With leading-edge sound and Bluetooth connectivity, WIDEX BEYOND™ gives you the best sound possible, based on where you happen to find yourself – whether it's in your car, at a concert or on a busy street.

You don't have to find the ideal listening conditions – they're created for you no matter where you are.

And you're always in control with our iPhone app which is fully customizable, is easy to use and lets you stream music and more.

BEYOND™ lets you experience sound just the way you like it.

**“WELCOME TO MY OFFICE”**

## LEADING EDGE SOUND

BEYOND™ gives you incredibly advanced overall sound quality.

It optimizes sound based on your environment – so you don't have to find the most ideal listening conditions: they're created for you no matter where you are.

## ALWAYS CONNECTED

BEYOND doesn't just keep you connected to your iPhone, but also telecoils and to phones, televisions and more with the DEX range of communication solutions.

## MORE POWER, FOR LONGER

BEYOND consumes less power than other similar hearing aids available – so you can hear and stream for longer.

And that means you change batteries less frequently

Make BEYOND™ your own with the personalised app. You can adjust sound settings and listening preferences, use personal pictures and even create sound templates for specific listening situations – such as being at a restaurant or with family and friends.

### THE BEYOND APP AT A GLANCE

The BEYOND app is incredibly easy to use. A user-friendly interface and the familiar swipe function mean you can quickly find your way around.
